Good Evening []

Thank you for your diligence to ensure the accuracy of the report described in this email chain. I understand the correction has been made in SCRIBE

I have determined a new report will not be needed from Ft Meade

Please ask [Nonresponsive based on revised scope] to print out the cover page of the validation report and the pages which require the change.

I will make and initial the necessary changes and we will keep the marked copy here in the Site file. Next week is fine, this does not need to be completed tonight

Thank you and [] for identifying this discrepancy

Please contact me if you have any questions

Chris

Hello Chris,

The issue below has been brought to our attention.
In order for us to make this change we would need official documentation in the form of a letter to file.

Thanks

Eric

Hello.

There was some confusion in our request. Scribe has been updated to with the new sample ID.

For our EDD report package we receive from the lab, are you able to update the sample ID in that package, or would a request need to be made to the lab to update the sample ID?

The EDD package has already been validated and we were unsure of the steps to take to update the validated EDD package.

ED_013731B_00005836-00003

Hello Jay,

We noticed that a Scribe ID on a COC was incorrect due to a typo on a recently received validation for Shiloh Church case 49307, SDG COC35. The COC was 3-020421-110355-0131, CLP Sample # COC36; submitted ID was SCR-PileOne-10-SS-02-20210203, but should be changed to SCR-PileOne-12-SS-02-20210203. Is there anything that can be done to correct the ID in Scribe? Please advise.

Thank you,
